Professional Summary

Computer Science undergraduate with hands-on experience building full-stack web applications and AI-powered software using React, FastAPI, Python, and PostgreSQL. Interested in backend development, artificial intelligence, and scalable software systems, with a strong foundation in data structures, algorithms, and problem solving.

Education

Graphic Era (Deemed to be University)

Bachelor of Technology in Computer Science and Engineering

2023 – Present

CGPA: 7.9

ICSE Board

Senior Secondary (Class XII)

2023

Percentage: 90%

ICSE Board

Secondary (Class X)

2021

Percentage: 91%

Projects

DevPilot AI – Generative AI Software Engineering Assistant | React 19, Next.js, FastAPI, PostgreSQL

- Built a multi-module Generative AI platform for documentation, requirements analysis and software architecture planning.
- Implemented persistent chat sessions with conversation history using PostgreSQL and SQLAlchemy.
- Integrated Large Language Models using prompt engineering for context-aware Gen AI workflows.
- Designed a modern glassmorphism interface with Markdown and Mermaid diagram rendering.

Kinosoca – AI-Powered Movie Discovery Platform | React, FastAPI, PostgreSQL

- Built a movie discovery platform with AI semantic search and mood-based recommendations.
- Integrated TMDB APIs for trending, popular, and detailed movie information.
- Implemented JWT authentication, watchlists, user profiles, and protected routes.
- Developed scalable REST APIs using FastAPI, SQLAlchemy, and PostgreSQL.

HireAmigo – AI-Assisted Resume Screening Platform | React, FastAPI, Python

- Developed a resume screening platform with automated candidate ranking and batch PDF processing.
- Built a rule-based scoring engine using hiring tags and keyword relevance matching.
- Implemented anti-bias screening, recruiter notes, and drag-and-drop candidate management.
- Added resume preview, CSV export, and customizable score buckets for recruiters.

Technical Skills

Programming Languages: Python, C, C++, Java, TypeScript, JavaScript

Frontend: React 19, Next.js 15, Vite, Tailwind CSS, HTML, CSS

Backend: FastAPI, REST APIs, SQLAlchemy

Databases: PostgreSQL

AI & Machine Learning: Generative AI (GenAI) Semantic Search, Recommendation Systems, NLP, Rule-Based Scoring

Tools: Git, GitHub, VS Code

Soft Skills

Problem Solving, Communication, Team Collaboration, Leadership, Time Management
